EDUCATION

University Name

Bachelor of Science in Computer Science

City, State

Month Year – Month Year

EXPERIENCE

Company Name

Software Engineer

City, State

Month Year – Present

- Developed and maintained scalable web applications using React and Node.js, improving system performance by 25%.
- Designed and implemented a RESTful API that handled over 10,000 concurrent requests per minute with 99.9% uptime.
- Collaborated with cross-functional teams to integrate AWS cloud services, reducing infrastructure costs by 15%.
- Automated CI/CD pipelines using Jenkins and Docker, decreasing deployment time from 1 hour to 10 minutes.

Company Name

Junior Developer

City, State

Month Year – Month Year

- Optimized SQL database queries, resulting in a 40% reduction in average page load times for the client dashboard.
- Refactored legacy codebase to modern standards, increasing code coverage from 60% to 85% via unit and integration tests.
- Resolved over 150 critical bugs reported in the production environment within a 6-month period.

PROJECTS

Project Name | *Python, Flask, PostgreSQL, React*

Month Year

- Built a full-stack e-commerce platform featuring secure user authentication and Stripe payment integration.
- Implemented a real-time inventory tracking system using WebSockets to synchronize data across multiple users.

Portfolio Website | *HTML/CSS, JavaScript, GitHub Actions*

Month Year

- Designed a responsive personal portfolio site to showcase projects, achieving an 80+ accessibility score on Lighthouse.
- Configured automated deployment workflows using GitHub Actions for seamless updates.

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL, JavaScript, HTML/CSS

Frameworks: React, Node.js, Flask, Spring Boot, JUnit, Material-UI

Developer Tools: Git, Docker, AWS, Jenkins, Postman, Kubernetes

Libraries: NumPy, Pandas, Scikit-Learn, Redux
